Tideland Signal Corporation acquired by Xylem Analytics

February 5th, 2016

Tideland Signal Corporation (“Tideland”) is pleased to announce that it has been acquired by Xylem Inc. (NYSE: XYL), a leading global water technology company dedicated to solving the world’s most challenging water issues. Tideland will now be part of the Xylem Analytics business and will stand side by side with well-recognized brands such as YSI, SonTek and Aanderaa.

“We are very excited about the possibilities now available with the added scope and scale of Xylem. We look forward to offering our customers more comprehensive solutions as we combine Tideland’s expertise in complex marine and offshore systems with Xylem’s proven analytics and sensor capabilities.” stated Matt Scheuing, Tideland’s CEO.

Tideland’s recent focus has been on actively expanding its applications reach, emphasizing integrated control and monitoring aids to navigation solutions. The additional capabilities that result from the integration with Xylem will continue that trend, enabling us to serve a wider array of intelligent data acquisition and analysis applications.

About Tideland
Headquartered in Houston, Texas, with key locations in The Netherlands, the United Kingdom, Dubai, Germany and Singapore, Tideland is a leading producer of Aids to Marine Navigation, sold under the Tideland and IMT brands. With navigation products and services used by, ports and harbours, marine authorities, offshore oil and gas, wind farms and military installations.

Over the years, Tideland has successfully collaborated on a number of field applications for measuring water and environmental data, combining our expertise in bringing together complex marine and offshore solutions with the deep analytics, sensor and analysis applications provided by Xylem.

About Xylem Analytics
Xylem’s analytics businesses are leading manufacturers of premium field, portable, laboratory and online analytical instruments used in water and wastewater, environmental, food and beverage, pharmaceutical and life science applications. The company’s meters, sensors, analyzers and related consumables are used every day by thousands of end-users worldwide to analyze and control quality in countless applications where precise measurement is required.

Xylem Analytics started with the core brands of WTW, SI Analytics, Aanderaa Data Instruments, Global Water Instrumentation, Ebro and Bellingham + Stanley, and has grown through a series of successful acquisitions including OI Analytical, YSI, MJK Automation, and most recently HYPACK. www.xylemanalytics.com
