

IHMA 2018 Congress registration now open

The International Harbour Masters' Association (IHMA) and Informa Australia have announced details of the 11th IHMA Congress, to be held at the Lancaster Hotel in London from 25- 28 June 2018. This will be the first time the Congress has been held in London.

Addressing the theme: Ports – Essential for Safe, Efficient and Secure Global Trade, the Congress programme will be designed to appeal to all responsible for the safe, secure and efficient conduct of marine operations in ports and industry organisations working with, or within, ports across all levels of the industry.

This is likely to be an attractive event in 2018 for all those with responsibility for port and marine operations and the industry that supports them.

Call for Papers

Potential speakers are invited to put forward ideas, case studies and technical research on the innovations that will promote safe, efficient and secure maritime logistics; improve cooperation between ports and ships; develop best practice, and raise global standards for the safety, security and efficiency of ports.

- Be written in English.
