

A reminder: RIN's 11th GNSS conference
Baska, KrK Island, Croatia
7 – 9 May 2017

See: <https://www.rin.org.uk/Events/4732/11th-Annual-RIN-Baska-GNSS-Conference>

This year's Baska conference focuses on the latest GNSS topics including:

- The development and modernisation of core systems
- Space-based augmentation systems
- Applications across land, air, sea and location-based services
- Receiver design and GNSS education

The conference is technically co-sponsored by Beihang University of Aeronautics & Astronautics, China. Media supporter is *Coordinates Magazine*

The Royal Institute of Navigation, London, the Faculty of Maritime Studies, University of Rijeka, Croatia and Faculty of Transport and Traffic Sciences, University of Zagreb, Croatia are the host organisations.
