

## **21-22 November: Efficiensea2 Workshop at IALA**

**10 Rue Des Gaudines, St Germain-en-Laye, Île-de-France 78100 France**

The Maritime Cloud is a communications framework that enables efficient, secure, reliable and seamless electronic information exchange among all authorized maritime stakeholders across available systems.

This framework is currently under development in collaboration between different projects: EfficienSea2 (EU), Sea Traffic Management – the STM validation project (EU) and the SMART Navigation project (Republic of Korea).

As a partner in the EfficienSea2 project, IALA is participating in the work on maturing the Maritime Cloud, in order to assess its potential as the generic communication framework for e-Navigation at large.

It is in this role of being a partner in the EfficienSea2 project that IALA is organising and hosting this workshop.

**The workshop will address the implementation of the Maritime Cloud with a focus on the options with regard to governance models and business models.**

The premise for the workshop is that it is desirable to realise the Maritime Cloud. There is a need to define the best possible way for reaching global rollout.

**More information is available on the nearby pdf or on the IALA website to be found at: [www.iala-aism.org](http://www.iala-aism.org) → Calendar → EfficienSea2 Workshop on the Maritime Cloud.**

### **Registration fee**

There will be no registration fee for the workshop, which is supported by the EU-funded project EfficienSea2. Workshop material, lunches, coffee breaks and social events will be provided. However participants will be expected to pay for their own travel, accommodation, and expenses.

### **Attendees**

Participants at the workshop will include: experts from industry and academia, e-Navigation providers, developers and project partners, stakeholders from EfficienSea2, e-Navigation Underway, IALA, and other interested parties.

### **Hotels and travel**

Information on hotels and travel to the venue will be provided by the IALA Secretariat: [contact@iala-aism.org](mailto:contact@iala-aism.org) tel. +33 1 34 51 70 01.

### **Visas**

Applications, if necessary, should be lodged with the local representative of France.
