

**GSC'18**  
**23 April 2018**  
**Ben-Gurion University of the Negev**

Moshe Idan, IAAC President, reports that the call for presentations for GSC'18 – the 2018 annual workshop of Graduate Students in Systems and Control has now been issued.

The call is to be found here:

**<http://iaac.technion.ac.il/workshops/2018/GSC18call.pdf>**

This event is one in which graduate students in systems and control from Israeli universities are invited to present their latest research results.

Such meetings provide an opportunity for graduate students to present their work to senior faculty members and to interested delegates from industry, as well as enabling students to become acquainted with the work of their peers.

For details on past GSC workshops readers are invited to see:

**<http://iaac.technion.ac.il/events.html>**

GSC'18 is organized by Dr Shai Arogeti and will be held on 23 April at the Ben-Gurion University of the Negev.

Deadline for submissions is 23 March, which is also the deadline for expressing interest to be a candidate for the Velger Prize – see details in the call above.

The workshop is, as usual, free of charge, but requires advance registration – details to follow, it has been reported.
