

GSC 18

Prof Moshe Idan of the Faculty of Aerospace Engineering at Technion IIT in Haifa has informed us of GSC'18 — the annual meeting of graduate students in the field of Control and Systems Theory.

This event, organized by Dr Shai Arogeti, will be held on 23 April at the Ben-Gurion University of the Negev, Building 51 (Ilse Katz Institute for Nanoscale Science & Technology), Room 105.

A detailed invitation to the event, its programme and abstracts of presentations can be found at: <http://iaac.technion.ac.il/workshops/2018/GSC18invitation.pdf>

This meeting will provide a great opportunity for graduate students to present their work to senior faculty members and to interested delegates from the industry, as well as to become acquainted with the work of their peers.

For details of past GSC workshops readers are invited to see:
<http://iaac.technion.ac.il/events.html>

The workshop is, as usual, free of charge, but requires advance registration (see the invitation for details)

Further details may be available from:
