

GSC '19
29 April 2019
Call for presentations

Professor Moshe Idan IAAC President informs readers of the link here:

<http://iaac.technion.ac.il/workshops/2019/GSC19call.pdf>

The call for presentations for the annual workshop of graduate students, GSC '19, has been issued with a closing date of 23 March 2019.

Graduate students in Systems and Control, from Israeli universities have been invited to present their latest research results.

These meetings provide an opportunity for graduate students to present their work to senior faculty members and to interested delegates from industry. At the same time they become acquainted with the work of their peers.

Details of past GSC Workshops can be found here:

<http://iaac.technion.ac.il/events.html>

GSC '19 is organised by Professor N Shimkin and Professor R Meir and will be held on 29 April 2019 at the Viterbi Faculty of Electrical Engineering, Technion, Israel.

The deadline for submissions is 23 March 2019 and this is also the deadline for expressing interest for those who wish to be candidates for the IAAC Prize.

The workshop is, as usual, free of charge, but requires advance registration and details will follow.

About IAAC

The Israeli Association for Automatic Control has the main goal and focus on the promotion of Automatic Control theory, practice, and education in Israel.

Available here <http://iaac.technion.ac.il/home.html> This web site presents an overview of IAAC, describes its organized meetings and workshops—past and present—and provides general information about control-related events and activities in Israel.
