The (US) Institute of Navigation’s ION GNSS+ 2020
Advance conference programme is now available online

The (US) Institute of Navigation informs that registration is now open for ION GNSS+ 2020: with the theme GNSS + Other Sensors in Today’s Marketplace. This is the 33rd International Technical Meeting of the Satellite Division of the Institute of Navigation and the world’s largest technical meeting and showcase of GNSS technology, products, and services.

ION GNSS+ 2020 will take place from 21 to 25 September at the St. Louis Union Station Hotel in St. Louis, Missouri.

ION GNSS+ 2020 features Commercial and Policy tracks and Research tracks with over 36 technical sessions over 23 to 25 September plus a commercial exhibit.

On 21 and 22 September ION GNSS+ 2020 will offer short courses on pre-conference tutorials to provide in-depth learning of specific GNSS-related disciplines and will again facilitate the CGSIC meeting.

Complementary short courses by ION Masters, back by popular demand
The Institute of Navigation’s Satellite Division is bringing back complimentary Short Courses taught by internationally recognized PNT experts and educators on 21 September.

Presented in a lecture-style learning environment, ION Short Courses are for professionals at all levels of their career, from the novice to the experienced practitioner and academic.

Plenary session
This year’s ION GNSS+ 2020 Plenary Session will feature two dynamic keynote addresses: Dr Christine Darden, retired NASA programme manager and one of the key researchers featured in the book Hidden Figures, who will share her personal “4P Formula” that helped her when she encountered roadblocks and detours in her career and in life.

And Dr Bradford W Parkinson will present “Radio Navigation from Marconi to GNSS.”

and Parkinson Award nominations now being accepted
Nominations are now being accepted for the Institute of Navigation Satellite Division’s prestigious Johannes Kepler Award—the annual award honouring an
individual during their lifetime for sustained and significant contributions to the development of satellite navigation—and the Bradford W Parkinson Award—the award recognizing an outstanding graduate student in the field of Global Navigation Satellite Systems (GNSS).

Completed nominations, including required reference letters, are required by 30 June 2020.

Registration may be undertaken at: www.ion.org/gnss

In the words of ION: ‘See you in St. Louis!’
